1. Production.	Guardian 28-5	Referring to the rumoured resignation of Mr. Coleman, states that this is attributed to the agitation against the Coffee Marketing Bill, that if this so, the explanation is not convincing; that Mr. Coleman has been able to get a fairly good support to the Bill and the Government are also committed to the measure, that if in spite of it, he feels himself forced to leave the Lysaght service, it seems that there is some want of tact and absence of personal responsibility somewhere; that it would be hardly sportsmanlike in Mr. Coleman if he deserts without seeing the Bill through the Legislature and before putting the Agriculture of the State on its feet. The article next elucidates the position created by the increased food production in the State and suggests the measures necessary to increase the production of food-stuffs, viz. the wide adoption of improved agricultural methods, grant of concessions in the matter of water-supply, getting lower percentage of revenue on lands cultivated under improved methods and no interest those who take up or encourage new method of cultivation to honorary places in local [illegible]

Excise Licensing Boards.	Mysore Chronicle (Eng.) 21-5	Commenting on the recent order sanctioning certain arrangements for placing the working of Licensing Boards on a more satisfactory basis, states that if the Boards have not so far worked efficiently, it is due to the presence of an official majority in them; that any proposals put forward by the Boards for a reduction in the number of shops were not carried and if they were carried, the Government could not give effect to them; that the revised arrangements are an improvement on the former state of things and that the new scheme can produce some use only if the Boards are made to contain a non-official majority and if the Government always agree to abide by their resolutions.

Referring to an article in the Guardian, pleading for the adequate representation in the public service of Indian Christians in the State, ~~states~~ says that the Government have not discouraged talent whenever it is found among members of this community and that the allegation about the existence of a certain ~~report of prejudice against Indian Christians~~

Iron Works.	Mysore Chronicle 24-[illegible]	is not borne out by facts. States that although the Finance Committee visited the Iron Works at Bhadravati fortnight ago, they have not yet published their report on the working of the concern for the information of the public; that the State is noted for its rich mineral ores and the for utilisation of which all efforts are t concentrated; that in the beginning difficulties may arise and when they are overcome successfully, there will be no trouble later on; hopes that no short-sighted policy will be voiced by the Finance Committee as regards Iron Works - a concern of great importance the state.

Referring to a report in the Tribune that Mr. Perrine instructed the police the suspicious occurrence in connection the death of a woman in the Nedrigahalli village and found the Jodidar of the village to be a non-co-operator and an autocratic headman in those parts wielding much influence and power, states that this statement is not correct, that the Jodidar is a loyal subject of His Highness working with the Government for the good of the State; that the methods of the police are often so intolerable that even loyal subjects of His Highness feel compelled to resist them and that it is the unpopularity of the police that is responsible for unhappy incidents of this kind.

An A.P.I. message states that the Mysore State Swarajya Party are arranging to hold a political conference in Mysore under the chairmanship of Mr.Gandhi about the middle of August next and that arrangements are being made to form a Reception Committee.
...C.S. In-...ciation	Daily Express 26-5	At the recent annual meeting of the Ly[illegible] Non-Gazetted Officers' Association, a proposal to approach the non-official members of the Assembly and the Council with an appeal to them to move the Government to afford some relief to the subordinate services, was agreed to. Other proposals which were also carried included a request to the Government (1) to raise the rate of interest on the Insurance Fund so as to conform to current rates, so that it would entitle policy-holders to a larger reversionary bonus; and (2) to institute a provident fund as an alternative to the Insurance scheme and to throw it open to men already in service.

9 ? This requires explanation, I think. Are the Swarajists, as a party, opposed to Gandhi's proposal by Govt.? W 27.5.25
